

Environmental Policy

RSK Raw Limited (RSK Raw) specialises in spill response, sustainable soil and water remediation, and research & development in the aforementioned areas. The Company recognises and accepts its responsibility to ensure that the business activities do the least possible damage to the environment and, by virtue of the nature of its business, always strives to have a positive impact upon the environment.

RSK Raw will provide suitable and sufficient resources to meet these responsibilities and comply with all applicable legislation and the requirement of BS EN ISO 14001, ensuring that services are provided in such a way as to minimise the environmental effects of material usage and disposal.

RSK Raw will ensure that these objectives are achieved by:

- Re-use or re-cycling of waste materials whenever possible, prior to disposal.
- Minimising the use of resources (materials, fuel and energy), thereby reducing wastage.
- Minimising all emissions and discharges (noise, gaseous, solid and liquid) and ensuring compliance with all regulatory controls.
- Consideration of environmental effects, and commitment to pollution prevention, in all business decisions, including the purchase of materials or equipment and the adoption of new technology/processes.
- Encouraging all third parties involved with the business to adopt a policy of environmental management.

RSK Raw is committed to a policy of Environmental Management throughout the Company activities and, furthermore, is committed to a process of continual improvement of environmental performance.

The arrangements in place to implement this policy form part of the day to day operational procedures of RSK Raw. Where opportunities for improvements in environmental performance are identified, appropriate corrective actions and relevant objectives and targets will be established. All identified issues will be tackled promptly, and with sufficient resources, to ensure that they are dealt with adequately.

A copy of this policy will be displayed at all offices and will be provided to all employees during their Company induction. Where requested, a copy of this policy will be made available to all interested parties. Employees at every level of the Company are expected to take all reasonable steps to safeguard the environment, whilst at work.

This policy shall be reviewed for its effectiveness and suitability at least annually as part of the management review process, or sooner if legislative or other changes require.

The Integrated Management System and RSK Raw's associated procedures are approved by the undersigned as the authoritative documents relating to the environmental impact of the Company's activities.
